

X2TM
YOUTH
PLAYER'S MANUAL

I AM COURAGEOUS, BUT NOT RECKLESS
I AM CONFIDENT, BUT NOT COCKY

I AM TOUGH, AND I AM SMART
I AM ALWAYS FOCUSED, AND ALWAYS AWARE

I RESPECT MY TEAMMATES, AND MY OPPONENTS
I LEARN FROM VICTORY, AND FROM DEFEAT

I DO NOT SPEAK OF MY SUCCESSES
THEY SPEAK FOR THEMSELVES

I LEAD BY MY ACTIONS
I PERFORM ON AND OFF THE FIELD

I AM WELL INFORMED, AND WELL EQUIPPED
I AM PREPARED FOR ANY BATTLE

MY STRENGTH, MY SPEED, AND MY INTELLIGENCE
ARE MY WEAPONS

I AM AN ENLIGHTENED WARRIOR.

MYRON ROLLE, ENLIGHTENED WARRIOR

ADAPTS TO THE HEAD.

Fit Seeker® creates a customized fit instantly, with no pumps needed. It provides outstanding comfort, and keeps the helmet secure during impact.

ADAPTS TO THE HIT.

Aware-Flow® Shock Absorbers adapt the helmet's compression to the magnitude and direction of the impact, reducing the sudden movement of the head.

1

WIDEST POINT

A proper fit is integral to a helmet's performance. Please read the following instructions to be sure your X2 Youth is fitted properly, or view our fit video at: xenith.com/fitvideo.

STEP 1 MEASURE YOUR HEAD

Using a standard measuring tape, measure the circumference of your head. Then consult the Xenith X2 Youth Size Chart and choose your correct size X2 Youth helmet.

XENITH X2 YOUTH SIZE CHART

	SMALL			MEDIUM			LARGE			
	SMALL			MEDIUM			LARGE			
Hat Size	6 3/8	6 1/2	6 5/8	6 3/4	6 7/8	7	7 1/8	7 1/4	7 3/8	7 1/2
cm	51	52	53	54	55	56	57	58	59	60
Inches	20		21			22			23	

FIT CHECKPOINT

Ensure that you are measuring the head at the widest point, about an inch above the ears and eyebrows.

Note: it may be helpful to do this in front of a mirror or seek the help of a parent, coach or other staff member.

2

SNAP BUCKLES
UNBUCKLED

CHINSTRAP FED
THROUGH FIRST
SLOT ONLY

STEP 2 PROPER SETUP

Unbuckle all four snap buckles and feed the chinstraps through the first slot of the snap buckles only. This will make it easier to adjust the chinstraps during fitting.

FIT CHECKPOINT

Ensure that you have read and understand the warnings inside your helmet and on the inside back cover of this booklet.

If not, take a moment and read them now.

3

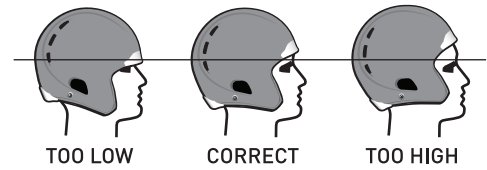

STEP 3 SEAT THE HELMET ON YOUR HEAD

Use the image to the left and the diagram below to ensure the helmet is seated properly on your head. The front edge of the helmet should rest just above your brow, and not be rotated excessively forward or backward. If you are between sizes, choose the larger size and insert thicker comfort pads. Thicker comfort pads are available from your local Xenith Authorized Dealer or Xenith.com.

FIT CHECKPOINT

If the helmet is rotated properly but still seated too low on your head, you may need thicker crown comfort pads.

4

MOUTHGUARD IN

STEP 4 CINCH THE LOW STRAPS BY PULLING FIRMLY OUTWARD

Pull the low chinstraps outward, which will cause the chincup to slide up to meet your chin, and the Shock Bonnet to snug down around your head. Be sure to pull evenly on both sides so that the chincup stays centered. Do not overtighten, as this may cause discomfort.

FIT CHECKPOINT

Ensure the chincup is centered and symmetrical.

If not, loosen the chincup and repeat Step 3.

Note: it may be helpful to do this in front of a mirror.

5

CHINSTRAP UNDER JAWLINE

STEP 5 ADJUST LOW BUCKLES AND SNAP INTO PLACE

Bring the low chinstraps under the jawline of the shell (as shown) and up to the snap. Then slide each buckle along the chinstrap and snap it into place, leaving minimal slack in the chinstrap.

□ FIT CHECKPOINT

Ensure the pads of the shock absorbers in the jaw area make solid contact with the side of the face.

If not, you may need the larger size jaw shock absorbers.

Note: if there is too much pressure in this area, you may need smaller size jaw shock absorbers.

6

STEP 6 ADJUST THE HIGH CHINSTRAPS AND SNAP INTO PLACE

Pull the high chinstraps upward so that the chincup pivots under your chin. Slide the buckles down along each chinstrap and snap into place, leaving minimal slack in the chinstrap.

7

STEP 7 CHECK FOR PROPER FIT AND ADJUST AS NEEDED

With all four buckles snapped into place, apply force to the facemask in multiple directions. If there is excessive movement, tighten the chinstraps further and readjust the buckles.

FIT CHECKPOINT

Ensure the helmet is secure by exerting upward force to the facemask. The chin cup should stay secure on the chin.

If not, unbuckle the high straps and adjust.

Note: if the helmet still wobbles excessively, you can order thicker comfort pads, or you may need a smaller size.

8

STEP 8 FEED STRAPS THROUGH BUCKLES TO LOCK IN PLACE

Once you have tightened all four straps and the helmet feels secure, lock the buckles into place by feeding the end of the chinstrap through the second slot of the buckle.

CONGRATULATIONS

The fitting process is complete. However, a properly fit helmet is only the first part of safer play. Please visit Xenith.com to learn more about concussion prevention and the risks of using your head to make contact.

TEAM ENROLLMENT

We created Xenith Academy to provide a complete risk-reduction strategy, while maintaining the fun and excitement of sports.

We want you to be well informed and well equipped. We want your athletes to be "Enlightened Warriors."

ENROLLMENT BENEFITS

By enrolling your program in Xenith Academy, you will receive several exclusive benefits including best pricing options for all purchases, fit and comfort guarantee for all players, selected replacement parts at no charge, and discounts on Xenith Gear for players and coaches. You will also have access to Xenith Academy information, faculty & partners, as well as training of a team representative in Xenith helmet specifics.

HOW TO ENROLL

Enrollment is simple.

Contact a Xenith Authorized Dealer to learn how you can start Building Enlightened Warriors.

COMMITTED TO EDUCATION

Xenith is a proud sponsor of the NATA Research & Education Foundation, and will donate \$1 for every X1™ helmet sold in perpetuity to the Cantu-Guskiewicz Endowment in support of research on concussive episodes.

For more information, visit: www.natafoundation.org.

CUSTOMER SERVICE & SUPPORT

Xenith Customer Support Representatives are available and happy to help answer your questions Monday through Friday during normal business hours (EST).

XENITH WARRANTY

Xenith warrants the helmet shell for five (5) years and the assembled Shock Bonnet® (including the interior liner, all shock absorbers, jaw guides, cable, shell cable guides, wishbone, and hook/loop attachments) for two (2) years. In the event of any failure of any warranted components, the complete helmet including the Shock Bonnet® must be returned to the place of purchase along with proof of purchase indicating purchase date, as well as the place and dates of reconditioning, if applicable. The helmet will be returned to Xenith for inspection, repair or replacement and returned to the purchaser free of charge.

You may replace worn components (facemasks, facemask clips, snap buckles, chin straps, chin cups) with only Xenith approved replacement parts (see your Dealer or contact Xenith for details). Xenith recommends annual reconditioning by a Xenith authorized reconditioner; failure to do so may adversely affect the performance of the helmet. A list of authorized reconditioners may be obtained from your local Xenith authorized dealer or by contacting Xenith's customer service department. Xenith recommends that helmets be retired from service not later than ten (10) years after initial use.

This Warranty shall be void as a result of any of the following:

1. Repairs or alterations made to the helmet which modify or alter the helmet including the removal of any warning labels.
2. Use of helmet replacement parts other than Xenith approved replacement parts.
3. Failure to use a Xenith authorized helmet reconditioner.
4. Failure to recondition the helmet at least once every two (2) years.
5. Painting of the shell by anyone other than Xenith or a Xenith authorized helmet reconditioner.

Warranty Exclusions: The following components are not warranted: chin pieces, low and high chin straps, snap buckles, facemasks, facemask clips, and fastening hardware including but not limited to T-nuts, screws and snaps.

Shock Absorber Alteration Warning:

Xenith uses several types of shock absorbers in every football helmet. Each type of shock absorber is designed differently and strategically placed in the interior liner to achieve the desired performance. Shock absorbers should not be interchanged or swapped from one location to another. Altering the shock absorber configuration could result in adversely affecting the performance of the helmet. Xenith disclaims any responsibility or liability resulting from unauthorized alteration of the shock absorber configuration. You may only replace worn or damaged jaw and crown shock absorbers with identical Xenith replacement parts.

If you have any questions about this warranty, please consult your dealer or contact Xenith customer service at 1-866-888-2322.

WARNING

NO HELMET CAN GUARANTEE PREVENTION OF SERIOUS HEAD OR NECK INJURIES WHICH MAY OCCUR AS A RESULT OF PLAYING FOOTBALL, INCLUDING BRAIN INJURY FROM A CONCUSSION. TO REDUCE THE RISK OF HEAD OR NECK INJURY, DO NOT USE YOUR HEAD TO MAKE CONTACT WITH AN OPPOSING PLAYER. KEEP YOUR HEAD IN AN UPRIGHT POSITION AND DO NOT USE THIS HELMET TO BUTT, RAM OR SPEAR ANY PLAYER. SUCH USE IS IN VIOLATION OF FOOTBALL RULES AND CAN RESULT IN SEVERE HEAD OR NECK INJURIES, INCLUDING BUT NOT LIMITED TO CONCUSSIONS, PARALYSIS OR DEATH, AS WELL AS INJURY TO AN OPPONENT. YOU SHOULD IMMEDIATELY REPORT ANY OF THE FOLLOWING SYMPTOMS TO YOUR TRAINER, DOCTOR, COACH AND PARENTS: "SEEING STARS", DISORIENTATION, CONFUSION, WOOZINESS, DIZZINESS, LOSS OF BALANCE, LOSS OF MEMORY, HEADACHE, NECK OR SPINE PAIN, NAUSEA, VOMITING, OR ANY OTHER SYMPTOM YOU BELIEVE MAY BE THE RESULT OF AN IMPACT TO THE HEAD. IF YOU EXPERIENCE ANY OF THE ABOVE SYMPTOMS, DISCONTINUE ALL FOOTBALL ACTIVITIES UNTIL YOU HAVE RECEIVED WRITTEN MEDICAL CLEARANCE AND ALL SYMPTOMS HAVE RESOLVED FOR AN EXTENDED PERIOD OF TIME. IGNORING THIS WARNING MAY LEAD TO ADDITIONAL AND MORE SERIOUS INJURY, INCLUDING POTENTIALLY FATAL SECOND IMPACT SYNDROME. REMOVAL OF ANY WARNING LABEL ON THIS HELMET WILL VOID, AS TO THAT HELMET, THE HELMET WARRANTY AND ANY INDEMNIFICATION OR CONTRIBUTION RIGHT THAT MAY EXIST.
